Experience

Full-Stack Developer Intern
Jul 2026 – Aug 2026

Kodpit Teknoloji A.Ş. · Denizli

- Designed and built RESTful API services with NestJS, PostgreSQL and SQLite, covering user management, a comment system and relational data models.
- Co-developed the frontend of Cinemania, a movie platform, with React, Vite and the TMDB API.
- Deployed the project to production on Render and managed version control with Git/GitHub.

Freelance Web Developer
Sep 2026 – Present

Self-employed · Remote

- Designed, built and launched xsportgym.com for a gym in Antakya with Node.js, Express and PostgreSQL, including a secure admin panel (bcrypt, HttpOnly cookies, rate limiting).
- Own the full cycle for clients: requirements, design, development, domain setup and deployment.
